

Physical Therapist

WE HAVE AN OPPORTUNITY FOR YOU!

WHERE: OPTM Sports and Physical Therapy

POSITION: Full time physical therapist with strong interest in manual therapy, exercise and interpersonal skills

WHEN: Immediate availability

SALARY AND BENEFITS:

Salary is commensurate with accomplishments; you also have control of your income with our bonus program. Health and malpractice insurance, profit sharing plan, monthly 4 hour in-service continuing education program and staff meeting

We have a great group of people at OPTM. All care providers are PTs with multiple certifications and skills. We have monthly educational meetings, we continue to evolve patient care and processing skills, and we have a referral base of over 200 sources and treat a wide variety of musculo-skeletal problems in people 10-90 years old. There is a strong emphasis on providing a safe and friendly environment for everyone who enters our facility, employees and patients alike.

OPTM Sports and Physical Therapy has an opportunity for you.

We want people who have pride in their profession and want to make a difference in the lives of the people around them.

OPTM emphasizes professional growth, nurturing collegial relationships and rewarding those who contribute to the growth of our practice.

GENERAL INFORMATION ABOUT OPTM SPORTS AND PHYSICAL THERAPY

General information about OPTM office function

1. All of us must work together in cooperation with the entire organization. Everyone's action has a large effect on the entire staff. Efficiency and organization leads to success!
 - a. There are times when we all pitch in to do laundry, maintenance, and clean up
 - b. We always try to help each other when we have time. Believe me, it helps to have the help when possible.
2. PTs have their own station:
 - a. Each station is self contained with all of the necessary equipment for patient care. All necessary equipment is kept at the station and are the responsibility of that PT
3. Patients are scheduled every 30 minutes. Our goal is to see 1.5 pts/hr. This allows enough time for charting and dictation
 - a. Charting and billing will be completed on the date service was provided. The different billing codes are color coded, be aware of the different insurance companies
 - b. Progress notes are sent to the referral source every 3-4 weeks
4. We try to accommodate the pt's schedule. There are times when people are seen by different PTs
5. We have monthly staff meetings. We want everyone to be aware of OPTM's current affairs.
6. We have monthly educational in-services. These are scheduled to accommodate our schedules. They are a service for us all at no cost other than time. They are excellent times to exchange ideas and gain understanding of who is doing what and how we organize ourselves to be on the "same page".
7. We have developed a "spirit" at OPTM. We accept that all things are in a stage of evolution. When something changes, and it doesn't work, we fix it. We have a mission statement that includes how we treat each other and our customers. It guides all that we do. We spend many hours together and our actions affect everyone, so our hearts must be in the right place.
