

# **ANNOUNCING OUR JULY GRAND OPENING**

## **OPTM Physical Therapy of Saratoga**

OPTM Sports and Physical Therapy is expanding by popular demand to serve the **Saratoga – Cupertino – Campbell** areas. Many of our people come from or commute through this area, so it became a logical area for a new office. We will be located ¼ mile north of Hwy 85 at Saratoga Avenue and Cox Avenue, near the intersection of Saratoga Ave. and Lawrence Expressway in Saratoga. This area serves the high schools of **Saratoga, Arch Bishop Mitty, Westmont, Prospect, Lynbrook, and Cupertino.**

We will be a provider for over 100 insurance companies as a member of the national network of PTPN. This will ease prescribing physical therapy services to people in regards to finding a provider for their insurance company. All new patients will be accommodated within 48 hours from the time of their first phone call for an initial evaluation.

**Paul Christensen** PT, DPT, OCS, ATC, CSCS, FAAOMPT and **Fabrice Rockich** DPT, OCS, CSCS are the principles in our new venture. Fabrice will be the chief of operations and provide care in the office. He has been with us for 6 years since he graduated from the U.S. News and World Report #1 Physical Therapy school in the nation, University of

### **12900 Saratoga Avenue, Suite A-1**

Southern California. He was in USC's first class to receive a doctorate degree in physical therapy.

Fabrice was certified by the NSCA as a Strength and Conditioning Specialist (CSCS) in 2000 and as an Orthopedic Certified Specialist (OCS) by the American Physical Therapy Association in 2002. He has extensive experience treating people with the variety of diagnoses in home health physical therapy. His primary clinical interests are in musculo-skeletal impairments ranging from total joint arthroplasty to injured athletes, who must return to an extremely high level of performance.

OPTM has always had the philosophy that all care should be

provided by physical therapists, not aides or assistants. We will always have the highest qualified people providing therapeutic services in our offices. A safe and positive environment will always be provided for the patients. Open communication will always be maintained with all referring doctors with timely reports. We will attend to any suggestion for improvement (except for having television in the office). And, we will continue to expand our professional knowledge through continuing education and collegial communication.

If you would like a tour of our new facility, please call so that we may make your visit more pleasant.

**We wish to extend a special thank you to all of the physicians and people who have made us successful in the past and made this new venture possible. We will always strive to serve your special needs.**
